

Multi-Tek® Analyzer:

Total Sulfur Analysis in Liquids and Solids

- ◆ Total sulfur, total nitrogen analysis
- ◆ ASTM D5453 Standard Test Method
- ◆ Fast analysis process
- ◆ Sulfur level detection limit: 0.3 ppm (RSD: 0.5-5%)

Sulfur Testing and Analysis Services

Professionally trained scientists provide sulfur analysis services for customers in industries, startups, research, and academic organizations:

- Fuel and Oil, Biodiesel, Biofuels
- Farming Products, Chemicals, Residues
- General Chemical and Specialty Chemical
- Cosmetic and Ethyl Alcohol Products

	Technique	Sulfur detection limit	Sample size per single
ADEM	Multi-Tek® UVF	0.3 ppm	1 ml

*Price per sample/batch upon request
